## WEB DEVELOPER EXPERIENCE

### FULL STACK WEB DEVELOPER

GENERAL ASSEMBLY | BOSTON, MA | JAN - APR 2017

- » During a 12 week 500+ hour course I developed, tested, and deployed four applications including 1 front end and 3 full stack projects
  - » **BUNDLEUP** | Ember + Express, MongoDB, Mongoose  
Learned how to use Ember.js for an application that allows users to log weather details to track comfort levels based on clothing and activity
  - » **FEEDBUCKET** | Express, MongoDB, Mongoose  
Worked on a 3 person team to create a full stack project based on our provided prompt "bucketli.st" and used Mongo, Mongoose, and Express for the backend
  - » **GIFTER** | Bootstrap, Ruby on Rails, Handlebars  
Used Ruby and Ruby on Rails to create a tool that allows users to save gift ideas for giftees which are listed using handlebars
  - » **TIC-TAC-TOE** | JavaScript, AJAX, jQuery, HTML  
Created a front end game and was able to achieve the additional challenge of allowing users to reload and continue playing incomplete games
